Project Title: *Puella Magi Madoka Magica* Website

I would like to build this website with multiple pages, with a clear navigation bar across the top of the page. I think attempting to condense the content into a single page will make it too cluttered; I want to avoid overwhelming the viewer with information, and instead, allow them to explore it at their own pace.

- **Home Page/Introduction** – This page will introduce *Puella Magi Madoka Magica*, providing a premise and general information regarding the series.
- **Plot**
- **Production**
 - **Development**
 - **Writing**
 - **Character design**
 - **Music**
- **Broadcast and distribution**
- **Related media**
 - **Films**
 - **Print media**
 - **Video games**
- **Reception**
 - **Critical reception**
 - **Sales**
 - **Accolades**
 - **Legacy**
- **Sources** – This page will list the sources used. It will include the Wikipedia page itself, other sources for photography, and any other sources that were looked at.
